

YOUR MISSION, RANGER:

THE CLOUD GALLERY

Lesson 6 · Become a cloud collector. Spot all 4 types this week.

GEAR YOU NEED

- This card + pencil
- Your Cloud Spotter Card (PDF 2-6)
- Camera or phone (optional)
- The whole sky!

HOW TO COMPLETE THE MISSION

- 1 For 7 days, step outside once a day and look up.
- 2 Match what you see to the 4 types: Cumulus, Stratus, Cirrus, Cumulonimbus.
- 3 Tick off each type in your Field Notes as you spot it.
- 4 Note the weather: is it hot, cold, windy, rainy?
- 5 Take a photo or sketch your favourite cloud.
- 6 Can you collect all 4 types in one week? Most rangers can!

RANGER TIP

Puffy cotton balls = Cumulus (fair weather)
Grey blanket = Stratus (dull day, maybe drizzle)
Wispy feathers high up = Cirrus (change coming)
Tall dark tower = Cumulonimbus (STORM — take cover!)

BONUS CHALLENGE

Watch clouds for 5 minutes and draw 3 shapes you see in them.
Animals? Faces? Dragons? Imagination is a ranger superpower.

FIELD NOTES / SKETCH

SCOUT SAYS:

Clouds are the atmosphere's mood ring — they show you what the sky is thinking. Once you know them, the weather forecast is right above your head, every single day.
