MIGRATION MAP

Trace the great journeys across Africa

NAME _____

DATE _____

RANGER # _____

ANIMALS ON THE MOVE

Every year millions of animals **migrate** — they travel long distances looking for food, water and safe places to have babies. Trace each route with a different colour!

AFRICA MIGRATION MAP

COLOUR CODE

RED Wildebeest — Great Migration (1 . 5 million animals!)

GREEN Swallow — Europe to SA, 1 1 , 0 0 0 km!

YELLOW Zebra — Botswana's longest land migration

WHY MIGRATE? 1) Follow the rain 2) Find food 3) Have babies 4) Escape cold winters

RANGER QUESTION: If one bird flies, do they ALL fly? Watch and find out in today's mission!

★ OUTDOOR MISSION ★

FLOCK WATCH

Find a group of birds in your garden (sparrows, doves, weavers). Watch them carefully. When ONE bird flies — do they ALL fly?

How: Take ONE photo of your bird flock. Scan the QR code to send your observation.

+ / 5 **RANGER POINTS**
